PREFACE.

This Directory number, the eighth annual issue of The Gear, we hope will meet with satisfaction. The Gear has been so ably handled in the past that we hesitate to place this copy in your hands but with the co-operation of the Associate Editors, and the individual officers and other members, we trust to furnish you with the information for which The Gear is noted.

It is impossible for the editor to furnish a correct Directory unless each member communicates at least once a year with him, noting changes and omissions in data, regarding himself.

"CALIFORNIA IN SEPTEMBER."

HE Convention at Berkeley, California, opens September 7th, 1915, and we urge every one to try to live up to the slogan of the last Convention 'Frisco in '15. Full information in regard to the Pro-

gram for the Convention will be found in Epsilon Chapter letter.

If you have not already done so, start your plans now to attend the Convention. You cannot afford to miss the Theta Tau doings, you will want to see the Fair, so plan to stay at least a week or two. Military and State of the State

ALPHA CHAPTER Established Oct. 15, 1904

University of Minnesota Minneapolis, Minn.

By FRED A. CUTLER, '17, Associate Editor.

Dear Brothers:-

Since Alpha's last letter to the sister chapters several things of importance have happened.

Late in April, the Twin City Alumni Association held the annual banquet at the University Club of Minneapolis. The entire active chapter and a large number of the alumni were present. The banquet was followed by an exceptionally good list of speakers.

In June we lost by graduation a large number of our most active brothers, namely, Kopper, Goetzenberger, Dorr, Wentz, Hewitt, Mahoney, Chapman, Rockwell, Kruse, Curtis, Eidimiller, Wasson, and Quinlan.

School opened in September with eighteen old men back. At the start of the year we had a large number of names on our rushing list and after two or three parties, we pledged nine men.

In November nine new brothers were initiated. The new men were Ralph Johnston, T. K. Leonard, R. A. Jones, Carl Wallace, O. M. Rufsvold, Richard Dennis, Donald McGilvra, M. Ritchie and Robert Stickney.

On the evening of October 15, 1914, we held a Founder's Day Banquet at the Andrews Hotel. A big crowd of alumni and the active chapter to a man were there. Our four Post-Seniors, Loeffler, Dunham, Colvin and Rockwood, who are noted wits, entertained during the course of the feel. All but one of the active representation adjourned to the Palace Theatre after the banquet and enjoyed seats in the front row.

We gave a dance on the evening of February 2nd, Dr. Holman, an honorary member, with his new wife, Professor Zelner, another honorary member and his better half were the chaperones.

At our meetings this year we have papers on some engineering subjects, written by the active members. We find this is a very good thing and some splendid papers have come in.

papers have come in.

We have several Tau Beta Pis in the chapter now. Brothers Dorr, Loeffler and Collar were elected last spring and brother Dunham was elected in the fall. Alpha Chapter is well represented in college activities. Brother Hult is Editor of the Minne-Ha-Ha and is on the Daily Board. Brother Phili Johnson is President of Art. In the Brother Hult is Editor of the Minne-Ha-Ha and is on the Daily Board. Brother Phili Johnson is President of Art. In the President of Art. Alpha President of A

We are working right along on plans for the new house. Some of the alumni and several actives are members of the Building Association and are in direct charge of the work. We know that we are handicapped by not having a house of our own but this will be remedied if plans materialize.

We wish our sister chapters a very prosperous year and trust that we will be able to see a good many of you all at the convention in California, this fall.

Yours in Theta Tau,

FRED A. CUTLER, Jr. For the Chapter.

annual letter to the Gear in a "Here's looking at you" spirit, and we can see no reason for departing from said custom this year. So, to all in Theta Tau, Beta extends its fraternal hand.

has always been customary to start the

The coming year promises to be no less successful than has been the past, and even the most jealous

member of Theta Tau could wish no more than that. The handicapped by the smallest entering class in the history of the College, we are quite contented with the new men we selected. One honorary member, five initiates and two pledgemen, added to the twenty men who returned, give us a roll worthy of Beta.

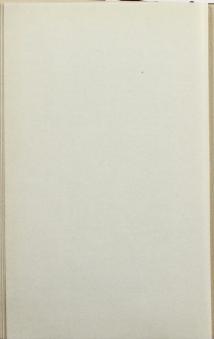

By far the most noteworthy event of the past year was the initiation, as an honorary member, of Professor Albert I. Houle, head of the Department of Metallurgy and Ore Dressing. The most popular and probably the most efficient instructor in school, an engineer of much practical experience, we count ourselves indeed fortunate to have been able to select him for the position left open by the death of brother Koenig. The formal initiation, which took place on Jan. 23, and which was attended by several of the older men, including brothers Potter and Ballard, was followed by a decidedly informal grub-fest and talk, during which harmony of various kinds, both local and

However, a history really ought to take up events in order, so we'll start away back in the Pre-Cambrian

imported, filled the air. of last year and work up.

Nicoleon Pous Lornin Allen Carlson Prof. Hoole David Suverkrop Clarke Heine Shields Food Drake Aldrich Brown Sfeinbach Apell France Camer Hiks Mills King Bratt Zimmerman Schemed Dobson en Gillen

The R-3 trip was taken by ten of the brothers; Allen, Carlson, Drake, Hicks, Shields, Heine, Wiggins, Wilkinson, Apell and Coughlin and was, according to the dope, "some trip." What the merry little crustaceans of Palatka did disturb our slumbers, what the the cold rain of the Baltic did percolate down our defenseless necks and Cap did smear his iron hand over our beautiful sketches, what tho we did lose an average our beautiful sketches, what tho we did lose an average enough bappening in the evening to make up for all that. Yes, it was some trin.

All the surveying was done at the Baltic, in Palatka, which, while not exactly as wet as Lake Superior, ran about eighty percent in moisture, we estimate. After two weeks in that riotous town, we made the regular trip thru the Iron Country, stopping at Iron Mountain, Iron River, Ironwood, etc., and arrived home with just enough morey left to buy chem

checks for "varnish burned off."

Some of the boys, however, were already familiar with the highways and byways, more especially the latter, of Iron Mountain and Crystal Falls, having been on the show trip the week before the R-3 trip began. Nearly every man in the house was with the show in some capacity, whether ticket taker, chrous lady, author or general roustabout. The "Plaid Mackimav" estay, court employed the country of the country of

But, we are sorry to say, there wont be one this year. Tho there was every prospect of putting on a good one, the Faculty was of the opinion that the work involved interfered too much with school work, and, from the marks turned in last year, they seem to have been right. However, we're hoping for another chance next year.

The summer courses were much the same as usual, save that "Christy" wasn't here for patterns and that Al Houle's railroad was even hillier than usual. The squad that started near the brewery, tho, again claim that surveying is a fine course.

The peridotites, the quartzites and the Eagle Cafe were inspected by the Y-7 men. We understand

that their report was favorable.

And then four short weeks and we started in on day and night shift again. Eighteen men returned, Brothers Allen, Apell, Bradt, Cramer, Clarke, Carlson, Dobson, Drake, Shiedds, Brown, Hicks, Zimmerman, Heine, Fraser, David, King, Mills, Schemmel and Nicolson. The entering class was very small, but the rush committee, headed by that well known lead pipe ing brands from the barving; H. S. Aldrich of Detroit, Geo. E. S. Bayless, one time of Hobart College but late of Juneau; S. H. Loraine of Phillipsburg, Pa., Roy Griffin of Flint and J. R. Poss of Detroit, all good men and true.

The interclass activities promised to be rather mild, due to lack of material among the Freshmen, but by adding to them all the men in the Senior class who weighed over two hundred, the football game developed into a real scrap. The Marquis of Queensbury would have been proud of that game. However, the Sophs, by combining baskethall with their football, won out by a 14 to 0 score, and by combining football with their baskethall, took that game also. Brothers Cramer, Catrack, King, and Nicolson were numbered among the assassins in football, of whom Clarke, Cramer and Nicolson metarization also at a baskethall.

Several changes were noted in the teaching staff, J. H. Bell of Dartmouth took Bill Sparks place as Physical Director, S. R. Brinkley of the University of Georgia succeeded Dr. Koch, Professor A. J. House became Professor of Metallurgy, in place of the late lamented "Pink Duke," Mr. Chapman was made Assistant Professor in the same department, and Geo. Schubert, the old time favorite of the Q-2 class was appointed as Assistant Professor of Civil and Mining,

The Fall initiation took place on Nov. 14, at the Douglass and was marked by a flow of wit and wine, the one following the other. The grub was fine, the speeches were good, in short it was a real banquet.

About this time the boys got settled down to work and nothing much happened, except an occassional party at one of those select clubs, The Gilt Edge or The Board of Trade.

About Thanksgiving time several of the brothers gathered together sundry shotgune, bowie knives, etc. and went out to chase the merry deer. Brother Drake actually did bring back some venison, which we ate without asking any questions. We still have suspicions tho, that there was something not exactly legal about that deer.

Brother Apell was one of the two men elected to Tau Beta Pi during the Fall Term. According to the dope, he deserved it.

About ten of the boys stayed in Houghton over

Christmas and divided their time between eating and Poker. It is rumored that as much as a dime changed hands some nights. Professor and Mrs. Houle invited the boys over to New Years dinner, which invitation was immediately accepted. The boys dug up their white collars and their best manners and, according to the dope, "Done themselves proud."

After Christmas two of the older men returned,

M. W. Foard, late of the Magpie Mine, Ontario, and Bones Steinbach. No radical changes were noticed in the winter term, save that the marks for the first month put quite a kink in the scholarship curve. Cab-Sper's department, with Q-2, Q-5, Q-7, R-2, R-4 and R-5 was responsible for most of the sad marks. We are pleased to state, however, that the boys rallied nobly and horned the "Old Boy" regularly for the next two months.

Brother L. A. Suverkrop of New York was initiated Jan. 16.

The basketball team got under way after Christmas but, due to lack of opponents, had a rather short and uneventful season. Atlantic, Calumet, Calumet, Y. M. C. A., Hancock and Marquette were the only teams played, the college winning every game. Brothers Clarke, Mills, Cramer and Nicolson played throughout and were awarded "M*s."

Eight of the boys from the house will make the R-3 trip this year, Foard, Cramer, Bradt, Schemmel, King, Clarke, Brown, and Nicolson. Needless to say they plan to begin where last year's crew left off.

ALUMNI NOTES.

R. R. Wiggins is now located in Nicaragua. He left for that country immediately after graduation last August, and is chief engineer for the Compania Mineral La Luz, Los Angelos in Prinzapulka, Nicaragua, Central America.

M. W. Foard who left school in 1909-10, and worked for brother Hasselbring at the Magpie Mine, Ontario, is with us again and expects to stay until he gets his degree.

J. R. Wilkinson is now instructing manual training in the high school in Neguanee, Mich. Joe expects to enter the mining world activities as soon as things pick up, and recover from the present slack conditions.

J. I. Ballard, '10, of the Quincy Mining Co. recently made a trip to Arizona to report on some tungsten properties, and on his return presented the school with some fine specimens.

Fred Gibbs is still at Cascade Mine, Palmer, in capacity of engineer.

W. B. Andrews paid us a visit the second of March, had dinner with us at the house. He is vice-president and general manager of the Oro-Belle Mining Co., Hart, Cal.

Russel Wortley is open pit engineer of the Wakefield Mining Co., Wakefield, Mich.

Joe Rowell is city engineer at the same town.

We received from Jas. A. Barr, '07, a short, too short and interesting letter a few days ago. He is engineer with the Int. Agr. Corporation Mt. Pleasant, Tenn. Miners of phosphate.

Gardner Edwards, '12, is now employed by the Calumet and Hecla Mining Co., and is at present driving a 400 ft. tunnel between the Tamarack and one of the C. & H. shafts.

"Pug" Schrieber, '14, is now working with brother Gilchrist in Norris, Ill., in the coal mines of the Alden Coal Co.

"Happy Mills" is now engineer for the Loretto Iron Mining Co. in Loretto, Mich. He recently designed a head frame which was later constructed over the old one, so that very little time was expended in changing from the old to the new head frame. R. A. Loveland is now working in brother Potter's

efficiency department of the C. & H., gathering dope on drills.

Chas. Rashleigh is still with the International Smelting & Refining Co. at Tooele, Utah.

The following brothers have been married since our last letter. K. K. Hood to Miss Amy Helen Caroll, of Hancock, Mich. Jan. 14, '14. E. P. Luce to Miss M. A. Hill, July 6, in St. Louis, Mo. P. E. Hinckley, to Miss Estelle Marie Hutchins, in Minneapolis, Minn., Oct. 10. F. S. Parkhurst, '04, to Mrs. Eloise Murless Johnson, in Niagara Falls, N. Y., Feb. 11, '17.

Theta Tau House, A. E. CARLSON, 233 College Ave. Chairman Letter Committee.

March 9th, '15.

In Memoriam

HARRY MILTON TURNER.

Harry Milton Turner was a son of David H. Turner, Crookston. He received his primary education at Crookston, then attended the Minnesota University from 1906 to 1908. He finished his education at the Michigan School of Mines at Houghton and was graduated there in 1911, receiving the degrees of B. S. and E. M.

He was employed by the International Smelting Company as foreman of the blast furnaces at Tooele, Utah. April 5th. he was crushed to death in the mine when he stepped to one side of a track to allow a car filled with ore to pass him. There was not room in the curve and he was crushed against the wall.

He was a member of Kappa Sigma Fraternity and in 1911 was Editor-in-chief of The Gear.

In writing of Brother Turner's death, Brother Erick J. Schrader says "His loss will be felt by all who came to know him. His ideals were high, and I fed that the profession needs more such young men." We as a fraternity unite with him in this feeling and realize that such a loss cannot but be felt by all.

In Memoriam

CLARENCE EDGAR COPELAND.

Clarence Edgar Copeland, a member of Gamma Chapter was engaged by the Britannia Mining & Smelting Co. of Britannia Beach, B. C., Canada. On March 22nd. a terrible slide of snow, mud and rock swept away practically all the buildings of the Britannia Mine.

The slide occurred just as the miners were in the act of changing shifts, and fifty-six lives were lost and twenty-two persons injured. Among the number killed were Clarence E. Copeland and his bride of January 6th. He was only 25 years old and had begun a most promising career.

He was a member of Beta Theta Pi Fraternity, and while at Colorado School of Mines was elected a member of Tau Beta Pi. The Fraternity mourn the loss of a brother, able and efficient whose short career was one of credit to himself and us.

GAMMA CHAPTER. Established Nov. 8, 1907.

Colorado School of Mines Golden, Colo.

By H. S. McKNIGHT, '15. Associate Editor.

AMMA CHAPTER welcomes with great pleasure this opportunity of again extending her greetings and best wishes to all her Theta Tau brothers. The opening of the school year of 1914-15 found seven men present from last years chapter and also brother Mc-

Guire who was with us the previous year. In addition to these we were fortunate in being able to welcome brother Chas. R. Vorck, Alpha.

Shortly after school started the election of new men took place and at the regular Fall initiation the following men were initiated: Follansbee, Beall, Gauthier, Harrod, Duggleby, Bicknell and Wood. All of our men passed the mid-term examinations and, with the exception of brother Wood, all are continuing with their work. Due to unfortunate circumstances bro. Wood found it necessary to leave us this semester but he will be with us again next fall.

On the night of Jan. 22nd, we held a banquet at the Albany hotel in Denver which was greatly enjoyed by all present. The entire active chapter and also several alumni were on hand and all, especially the latter, entertained with some good speeches and "bum jokes." The banquet was a highly successful one and we hope to have another before school is out.

Our Tau Beta Pi men are Duggleby and Mc-Knight, and our "M" men are Davis, Dodge, Burns, Shanley, McKnight, Burris, McGuire, Beall, Gauthier, Duggleby, Essig and Follansbee. Brothers McKnight and Gauthier captained the football and basketball

teams respectively and brothers Essig and Follansbee managed the same. At the close of the basketball season brother Burns was elected captain of next year's team. Also brother Bicknell is to manage next year's football team.

Early in the year the question of getting a chapter house of our own was again brought up and although a great deal of work has been done in that direction we have not as yet been successful. The principal trouble has been in finding a suitable location near the school, and we hope to be able to do this by the beginning of the next term.

In closing we wish for all unlimited success and prosperity for the coming year.

GAMMA.

H. S. McKnight, S. A. E. House, Golden Col.

GAMMA ALUMNI PERSONALS.

Clarence Copeland, married January 6th, 1915, to Miss Katherine Holland of Seattle, Washington.

Burwell Kilbourn, married June, 24th, 1914, to Miss Helen M. Carney, of Boulder, Colorado. Donald Dyrenforth, married to Ruth Virginia

Donald Dyrenforth, married to Ruth Virginia Wheeler, December 9, 1914, at Evanston, Ill.

Henry Skavlen, married February 6th, 1915, to Emma Richardson, of Janesville, Wisconsin.

Stanley M. Walker, has been appointed Consulting Engineer for the A. B. G. Mining Company, at Sydney Mines, Rico, Colorado, also Advisory Engineer for the Monarch Madonna Mining Co., Monarch, Colo.

DELTA CHAPTER. Established May 23, 1911

Case School of Applied Science Cleveland, Ohio

By E. ROSS HOUSHOLDER, '17, Associate Editor

FTER enjoying a most prosperous year, members of Delta Chapter wish to share their good cheer with the sister chapters in Theta Tau. To them we wish to extend our very best wishes for their future welfare.

Delta chapter had but seven active members in school at the beginning of the first semsetter in 1914. Only three of these were staying at the house, together with three alumni members. The active enrollment has since that time been increased to nineteen. Delta was unfortunate in that six of its members failed to return to school in September; however, most of these the second of the second semseter and with his return we now have nine men living at the house.

The house committee at present is on the look-out for a larger house. We hope to be in a more satisfactory location before the end of the school year in order that everything may be in readiness for next autumn.

During the June pratice term of last summer the number of men staying at the chapter house was considerably reduced.

In the summer months four alumni, C. F. Koehler '09, C. A. Braun Ex. '16, R. M. Greenslade Ex. '16, and K. E. Moree Ex. '16, together with E. R. Housholder '17 stayed at the house. The Cleveland Alumni Association held monthly meetings here during the summer.

Recently the various fraternities at Case have started to keep records of the scholastic standings of

their individual members. The faculty has co-operated in this matter by compiling a monthly report of all the fraternity and non-fraternity men based on the percentage of failures. Theta Tau has stood highest in rank in this regard since the innovation was started. It may not be out of place here to add that 50 per cent that since the founding of our chapter about 33 per cent of our men have been elected to Tau Beta Pi.

For 1914-15, brother Churchill is president of Tau Beta Pi; brother Diemer is corresponding secretary; and brother Kline is representative to the college senate for that organization. Last spring brother R. I. Anderson. '14 was elected

to membership in the society of Sigma Xi. The thesis work he carried on concerning "The investigation of the equilibrium diagram of the system cuprous sulfideferrous sulfide series" was most original.

We are well represented in the various student activities, viz.

Brother Sprowl is a member of the Dramatic Club which aided in the production of the Home Concert of March 18, 1915.

Brothers Willson, Diemer and Krill are members of the Glee Club.

Brothers Sprowl and Willson are connected with the Case band.

In football brothers Kline, Diemer, Applegate, and Kaiser won their numerals.

Inter-fraternity basketball was again resumed this year with eleven teams competing. Delta was represented by brothers Churchill, Ganzenmueller, Buc, Housholder, Freeman, McInnes and Willson. All men making fraternity basketball teams were excused from compulsory eymmasium work by the faculty.

DELTA CHAPTER

(Also-Kodet, Stevens, Craun and Driscol.) Freeman

The Pick and Shovel club, which boasts of having the best club on the campus, has enrolled brothers, Kline, Applegate, McInnes and Wilson. Brothers Diemer and Abbey are members of the Mechanical club. Brother Churchill is our only member of the Stadia club, which is composed of civils. He is chairman of the entertainment committee.

All student activities in school are controlled by a student senate. Brother Sprowl is the representative from our fraternity, while brother Kline was elected from the Tau Beta Pi.

As members of various committees under the direction of the board of managers of the Case Club, brothers Ganzenmueller, Kaiser and Housholder have done efficient work for the welfare of the club.

Through the efforts of Dr. Van Horn, professor of mineralogy, students her are enjoying the benefits of a gymnasium and club. The gymnasium was opened January 15, 1915, although the formal deficit ton took place March 20, 1915. The indoor running track, large basketball floor, plunge showers and locker room are features of the gymnasium.

The Case Club membership includes all students, faculty members, and alumni (as honorary members.) The club includes a number of rooms in the same building with the gymnasium, which are to be used by the various clubs and student organizations at Case. A large club and lounging room, appropriately decorated, a big dining room, where meals are served, and where different school banquets and suppers may be held, a billiard room, bowling alleys, are all provided, together with other features intended for the pleasure and enjoyment of the men. The whole is under the control of a board of managers, composed of three seniors, two juniors, one sophomore, and one faculty member. Dances are held in the club and

gymnasium by the fraternities and other organizations.

Each year the various engineering departments have the students go on practice trips, where they are given practical instruction. Brothers Kline and Applegate accompanied the junior miners on their June practice trip to Mineville, New York. Here they became acquainted with brother Rigby, '12, of Beta Chapter. After a two weeks stay in the magnetic region the trip was resumed through New Jersey

with an inspection of the mining and metallurgical plants.

Among our members that were in the party of eighty-three men in the freshman camp at Waynesburg, Ohio, were brothers Main, Housholder, Ganzenmueller and Kaiser.

The first two weeks of April of this year brothers Abbey and Diemer went with the senior mechanicals on a inspection trip through the northern and central western states. At the same time brother Churchill was with the senior civils on a trip through the cast. The senior miners took no spring trips.

Six of our number will graduate on May 27, 1915, as follows: McInnes, Kline and Applegate in the metallurgical mining department; Diemer and Abbey in the mechanical department; Churchill in the civil department. Our Chapter together with the other fraternities will hold open house on Commencement day.

During the first semester, we had two initiations

at the chapter house. On October 12, 1914, brothers at the chapter house. On October 12, 1914, brothers 12, 1915, we had been seen are sophomores. In accordance with a reent ruling of the student senate no freshmen are initiated at Case during the first semester. On March 22, 1915, we held the first initiation of the second

semester. Then brothers Kodet '18, Stevens '18, and Craun '17, were initiated. Since then Driscoll, '18, has been pledged.

Our annual December banquet to the new men was held at the Colonial Hotel, on the evening of December 12, 1914. Among the out of town alumni present were:

C. F. Koehler, '09, of Elyria, Ohio.

Roy Wallis, '10, of Bessemer, Pa. D. B. Frisbie, '11, of Toledo, Ohio.

R. P. Heston, Ex. '14, of Toledo, Ohio.

Many good suggestions were offered the active

Many good suggestions were offered the active

The social side of life has by no means been neglected by Delta during the past year. The first dinner dance was held on November 20, 1914. After dinner at the chapter house the party went to the Roadside Club and danced throughout the remainder of the Mrs. Allen. On February 3, 1915, the Roadside Club was likewise the scene of our second dance. A dinner party was given on March 18, 1915, at the chapter house preceding the attendance at the Home Concert at the Duchess theatre.

Many of the happenings concerning the Delta chapter of Theta Tau during the past year have here been recalled. Not a few notes undoubtedly have slipped the editors' attention. No attempt has been made to tabulate these matters in chronological order; rather we take this means of giving our alumni, our active members and our sister chapters, an idea of what we are doing and have done during the past year. It is our belief that a fraternity's standing in any school is relatively proportional to the standing of its individual members and the activities in which they take a part.

Delta Chapter, wishes to urge all Theta Tau men to pay us a visit any time they may be in Cleveland. To all is extended the very best wishes and good fellowship in Theta Tau.

DELTA.

Theta Tau House. 2153 Fairmont Road,

28

Cleveland, Ohio.

DELTA ALUMNI NOTES.

G. E. Alderson, '09, is still with the Nichlos Copper Company, at Brooklyn, New York. We certainly would appreciate a letter from him.

I. S. Applegate, '15, will graduate in May. He expects to locate in Youngstown; the steel town always

did have a certain charm for "Jack."

Carl A. Braun, Ex. '16, is doing time at the Industrial Machine Company, Cleveland, Ohio. He expects to enter Ohio State University next autumn.

C. S. Arms, '12, comes down from Toledo, Ohio. about once a month, to visit his many friends here. He is assistant metallurgist with the Willys-Overland

Company.

C. A. Bever, is superintended of the foundry at the Otis Steel Company, in Cleveland. He is also treasurer of the Cleveland Alumni Association. O. C. Budde, is secretary of the Cleveland Alumni

Association and incidently teaches in the Cleveland high schools.

L. A. Collier, '14, is with the Prefection Spring

Company, of Cleveland, Ohio. He was married in July, 1913, but kept the secret for a year. D. B. Frisbie, '11, is president of the Home Fuel

Company, at Toledo, Ohio.

V. C. Fugman, is with the National Lamp Association, Nela Park, Cleveland, Ohio.

A. C. Hasse, is occupied with the real estate business now in addition to attending the Cleveland Law School.

C. F. Koehler, '09, is chief metallurgist at the Garford Company, Elryia, Ohio. "Chief" spent last

summer at the chapter house.

R. M. Greenslade, Ex. '16, was in vaudeville for about three months last fall, but on request of the pater he forsook the board for the Industrial Machine Company, in Cleveland, Ohio.

W. C. Main, Ex. '17, announced his marriage to Miss Jesse Kurz, of Ashtabula, Ohio, at the February dance of the chapter at the Roadside Club.

E. R. Housholder, '17, was editing a newspaper at Bowling Green last fall, but decided to return to school the second semester. He is still advertising

"The Capital of Wood County."

R. D. Malm, has returned from Rutland, Vermont. He is an engineer with the Cleveland Illuminating Company, here in Cleveland.

A. Ř. McLaughlin, is vice president of the Cleveland Alumni Association. He is still with the Standard Oil Company.

L. B. Riddle, is with the Marietta Oil Company at, Nowata, Oklahoma. We would like to receive a letter from him.

H. L. Rose, Ex. '16, has completed his pharmacy course at Ohio State University. He is with the Story

Cobb Company, Cleveland, Ohio.

J. C. Scott, Ex. '14, finds time, in addition to his studies, for managing the Glee Club, Dramatic Club and college band at Western Reserve University.

E. R. Stein, is with the Dow Chemical Company.

at Midland, Michigan.

E. A. Taylor, is president of the Cleveland Alumni Association. He is also chief chemist with the Grass-

elle Chemical Company, Cleveland, Ohio.

Carl R. Heena, Ex. '17, is foreman of the machine shop, with the Court Street Garage Company, Bowling Green, Ohio. Occassionally, Heena, makes Cleveland a visit. He is planning on re-entering Case School next year.

K. Earl Morse, is draftsman with the Wallace

Tractor Company, Cleveland, Ohio.

Much credit is due brother R. J. Anderson, for his aid in compiling Delta's letter this year.

EPSILON CHAPTER. Established May 4, 1911 University of California

University of California Berkeley, California By W. D. McMILLAN, '13, Associate Editor.

is with pleasure that Epsilon receives this opportunity to greet her sister chapters through The Gear. Our hearty good will and fraternal salutation to every wearer of The Gear-Pin! May the spirit of H.

and T. guide us through the future as in the past!

The fiscal year has been frought with weighty matters for Epsilon. We have labored under a considerable handicap due to the absence of Prof. Louderback throughout the year. Last May he announced that the Standard Oil Co., had claimed his services for the ensuing year, but that he felt that the interests of the chapter were safe in the hands of those who remained.

The national convention to be held in Berkeley Stephenber 8 to 11 inclusive of this year, has been occupying the attention of Epsilon Chapter. The general plan of the convention was outlined in the last Gear.

It is expected that the Grand Officers will arrive

in Berkeley in time to meet on the 7th, and prepare the business in such a way that the convention can act on it with as little delay as possible.

The following is a tentative program for the

The following is a tentative program for the convention:

Sept. 7th. 8 P. M.—An informal "get-together"

smoker at the Hofbrau Cafe in Oakland.

Sept. 8th. 9 to 12 A. M.—First business session.

7 P. M.—Tug ride around San Francisco bay.

Sept. 9th. 9 to 12 A. M.—Second business session. 1 P. M.—Trip to Mt. Tamalpais. 7:30 P. M.—Lecture by Bro. George D. Louderback.

Sept. 10th. 9 to 12 A. M.—Third business session.

(Afternoon and evening open).

Sept. 11th. 8 A. M. to 5 P. M.—Trip to Selby.
7 P. M.—Formal banquet at Techau
Tayern.

Sept. 12th. There will be a special trip arranged for all those who care to go to the Big Trees at Santa Cruz.

It is planned to sell a ticket to each member upon his arrival in Berkeley, which shall cover his expenses in connection with the convention (exclusive of board and lodging). This ticket will be in sections, each section covering one feature of the entertainment planned. The price of the ticket will not exceed \$10.00.

Five new men were initiated into Epsilon on Sept. 5th, of last semester, as follows: Edgar Woodcock, '14, J. M. Douglas, '15, J. L. Waithman, '15, A. M. Hazard, '15, C. L. Moody, '16. At the same meeting E. A. Hersam, Associate Professor of Metallurgy, was received as an honorary member, and has since taken a great interest in chapter affairs.

The installation of officers for the spring term was held at the Hofbrau Cafe in Oakland during the midexamination season. "Pop" Kestler served up his best for the occasion. The regency was placed in the capable hands of "Dusty" Rhoades.

The second term election has added to our number the following worthy men: E. Y. Dougherty, '15, H. A. Brett, '15, T. D. Kirwan, '15, W. G. Farnlacher, '16, F. J. Hoenigman, '16. They have only recently

passed through the initiatory process, but are already staunch supporters of H. and T.

The hearts of all the miners were saddened during the closing days of last term by the sudden death of Professor S. B. Christy, Dean of the College of Mining since 1893. Although not a member of Theta Tau, he was highly respected and reverted by all the members. His loss is felt not only here, but all over the world where mining occupies men's minds.

From the scholastic point of view, Theta Tau stands high in the list of professional fraternities at California. This year bros. Buwalda and Packard will receive the degree of Ph. D. in Palaeontology. Both have been University Fellows, and both have contributed largely to west coast geology. Great things are expected of them.

Epsilon was well represented in the annual honor society elections. Bros. Woodcock, Rocca, and Feeley made Sigma Xi; bro. Farnlacher was elected to Tau Beta Pi, and Betta Kappa Alpha received bro. Moody.

Bro. Feeley received the B. S. degree at Christman and is now enrolled as a graduate student in mining. As a side issue he is teaching the mysteries of mineralogy to the uninitiated. Bros. Rhoades and Rocca will graduate this May as Bachelors of Science in mining, while Bros. Kerr, Vanderleck and Douglas will receive the new A. B. degree in Geology.

The outlook for Epsilon's future is bright. The properties material in the Sophomore Class in mining is excellent; we will undoubtedly be able to add a number of boosters to the chapter-roll when initiation season rolls around again.

Then, too, we are anticipating bro. Louderback's return, an event of vital interest to Epsilon. His party has been exploring China in a reconnaissance way, with the intent of finding new wealth for the Oil Trust. The thing that will appeal to all the brothers is that the party is entirely a Theta Tau aggregation. For his assistants Professor Louderback chose "Art" Eaton, Roy Morse, "Tucky" Tailaiferro, and Frank Hudson, all Epsilon alumni. We expect all these men to continue graduate work when they return next year, and their presence will mean much to the chapter. We are all hoping that they will arrive in time for the convention.

In closing we wish to call to the minds of all the brothers and alumni of Theta Tau the slogan adopted at the last convention—"Frisco in 1915"—and remind them that the time is now at hand, and that Frisco is ready to welcome them. We hope all of you are planning to visit the Exposition, of which we are duly proud. When will there be a better time to see it than during convention week? By that time the present infant wonder of the world will have achieved full maturity, let not one H. and T. brother miss the inspiration that awaits him at the Jewel City.

It will greatly facilitate matters for our convention committee if each member will communicate to our scribe his intention to attend, and approximately the time when he will arrive.

May the prosperity and happiness that we see in prospect for ourselves be the portion of all the sister chapters in H. and T.

FPSHON

EPSILON ALUMNI.

Brother Hendricks took his B. S. Degree and himself up to Grass Valley last Christmas and has since been cyaniding for the Empire.

C. E. Waldner, '13, is in business in San Francisco.

Casey Campbell is mining and fighting Mexicans at Sinaloa.

A. K. Hegeman, '14, is employed at Ely, Nevada.

R. W. Pack and "Walt" English are looking after the interests of the U. S. Geological Survey on the coast.

Edgar Woodcock handled the instruction in Mineralogy last term, but this year was appointed the right-hand assistant of the State Mineralogist, and now boasts of a private office in the State Mining Bureau.

"Reg" Stoner is assisting at the Standard Oil's exhibit at the Exposition.

"Don" McLaughlin came near grabbing the University Medal last year, and on the strength of that he has exposed himself to the Harvard Graduate School.

Percy Thompson is one of the Standard Oil's main stays, in the Fullerton fields.

George Tickell has dropped mining and is studying medicine at Stanford.

"Stan" Arnot is doing what he can for the North Star Mine.

"Johnnie" Suman is making quite a reputation for himself as an oil geologist. He is employed by the S. P. in the Texas fields.

G. B. Moody is physical director at the Berkeley High School.

Werner Lawson is field geologist for the S. P. in Nevada.

"Fritz" Davis is rapidly becoming a sure enough 'Prof." He is giving a course on fault problems which has made us all sit up with ourselves to the wee sma' hours many a time and oft. In addition he is wet nurse to the flock of seismographs in the basement of the library. He is Lord High Keeper of the elastic rebound theory at California.

"Doug" McMillan was on the campus last term and sported a Van Dyke that ran bro. Louderback's a close second. In fact, several of the fellows duked him respectfully and asked him how he had enjoyed his trip to China. "Doug" is Alfred Witman's first assistant at Cobalt.

ZETA CHAPTER

Established April 17, 1912
University of Kansas at
Lawrence, Kansas
By C. VAN DERLIP. 16. Associate Editor

W "

IEN Zeta Chapter mobilized its forces last September, eleven brothers responded to roll call and declared themselves back on the job and ready for another lap in the race for learning. We have since then succeeded in pledging and initiating thirteen more into

the ranks of Theta Tau, bringing our number up to trenty-four. The following were initiated last fall (1914): Harl Russell, Darl James, George Smee, W. E. Brown, G. C. Harding, C. W. Harding, L. B. Smith, and C. VanDerlip. At the first of the year Don Rankin, Lawrence Cole, A. R. Bartell, Hugh Crawford and Andrew Groft were initiated. Paul Diehl, C. J. Wakenhut and George Yeokum are pledges. In school honors Theta Tau has had her share,

In school honors Theta Tau has had her share, in ort more. James is Captain of next year's football team; Russell, Burton, Groft, are "K" football men; C. J. Painter and Smee are each wearers of "K" base-ball sweaters, while Cole is a member of the so-lar-undefeated basketball team and has won his "K." N. W. Brown is president, James is vice-president fremplin is president, James is vice-presidentering. School: Templin is president, James is vice-presidentering. Society, Yeakum is also manager of the Sophomore Hop. W. E. Brown is vice-president of the Student Council and engineering editor of the Kansas annual, the "Jawahwaker." Carl Painter is a member of the Glee Club and has a part in the senior play. Ackers is a member of the Student Council.

Tau Beta Pi was installed in Kansas University in the early part of December with the following Theta Taus among the Charter members: Newcomber Nutting, Templin, W. E. Brown and C. W. Harding The following men graduated last spring (1914): R. L. Deger, G. R. Murphy, L. C. Angeuine, S. G. Fairchild, L. W. Kinnear, J. S. Nutler, J. L. Bliss, James Parker, O. A. Dingman and L. H. Dodd. Brothers C. E. Painter and L. B. Smith graduate at the end of the present semester (February 1915).

Zeta Chapter has given three smokers so far this year and hopes to be host at several more during the semester just starting. The first of these smokers was given at the Sigma Alpha Epsilon house and a number of faculty members besides about thirty students were present. At these informal affairs, talks are made by faculty members, active brothers and alumni members, whenever the latter can be present. A judicious admixture of eats, talks, and smokes makes such occasions very enjoyable and are not the least important of the many things that keep Zeta Chapter in touch with the school. Our long cherished hopes for a house of our own

have not yet been realized but we have definite plans on foot and expect to have our own quarters when school opens next fall.

Zeta's annual banquet will be held some time in the future at the Eldridge house and we look forward to a very enjoyable repast. Brother Ackers is managing the affair.

The present officers of Zeta Chapter are: Brother C. E. Painter, Regent: Brother C. I. Painter, Vice-Regent: Brother G. C. Harding, Scribe; Brother W. A. Burton, Treasurer; Brother Malcolm McCune. Historian; Brother C. VanDerlip, Corresponding Secretary.

Groft Painter Brown Professor Rice Van Derlip Smee Brown Templin

Some of us will undoubtedly be in San Francisco when school is out this spring and hope that a goodly number of loyal Theta Taus will be there. In the meantime Zeta Chapter extends her very heartiest good wishes for success and prosperity to every Theta Tau man.

ZETA.

C. VanDerlip, 1333 Tennessee Street, Lawrence, Kansas.

ZETA ALUMNI PERSONALS.

Lawrence Kinnear, '14, is an engineer on the New York subway. His address is 137 Riverside Drive, N. Y.

Geo. N. Murphy, '14, is with the Frisco Railroad. His address is Springfield, Mo., care Frisco.

Sam Fairchild, '14, is secretary to Lieut. Gov. Morgan of Kansas. Address, care Senate Chamber, Topeka, Kansas.

C. B. Hostetler, '14, is with a mining company at Morenci, Ariz.

Chas. M. Coats, '13, is city engineer and superintendent of the Water Works at Chanute, Kansas. His address is 321 S. Evergreen.

Chas. W. Tholen, '14, is with an engineering company at Camden, N. J. His address is 428 Linden St.

H. H. Campion, '13, is with the Westinghouse Electric Co., Wilkinsburg, Pa. Address, 419 Ross Ave.

W. F. Price, '13, is with the signal department of the Santa Fe at Topeka, Kansas. His address is 123 E. 10th St. R. L. Seger, '14, is in Topeka, Kansas. His address is 1132 N. Harrison St.

ETA CHAPTER Established March 23, 1913

Massachusetts Institute of Technology Boston, Mass.

By KEMERTON DEAN, '16. Associate Editor

HE S

HE past year has been a most successful one for Eta Chapter. Of the thirtythree active men in the Chapter last year, eighteen returned to college in the fall.

Previous to the annual fall initiation, a smoker was held in the Copley
Square Hotel, to which were invited about thirty men
whom we considered promising material for Theta Tau.
The smoker was a great success, and gave the members
opportunity to become acquainted with all the men
under consideration. About three weeks later the
following men were initiated: T. W. Little of Hartford,
Conn., E. H. Barry of Newton Center, Mass.; A. F.
Shuey of Camden, Ohio; V. Young of Sewickley, Pa.;
J. Hepinstall of St. Thomas, Ont.; F. C. Holbrook of
Boston, Mass.; R. R. Harper of Des, Moines, Iowa.

Shortly after initiation, brother Harper left college to accept an excellent position with the B. F. Goodrich Company in Akron, Ohio. This left twentyfour men in the active Chapter.

Our second annual initiation will be held in about a month, and preparations are now taking place for another smoker similar to the one held last fall.

Our meetings have been extremely interesting, and consequently very well attended. Some of the brothers who are engaged in original thesis work present papers on their respective subjects. Among these we have had a description of an electric flowmeter, under process of construction by one of the

seniors. Diamond drilling was the subject of another paper. One of the brothers who is making original investigations in mathematics, read us a very interesting paper on the geometry of homogeneous or tri-linear co-ordinates, which deals with equations higher than the third degree.

Practically all the brothers are actively engaged in under-graduate activities. Six of the brothers are members of Osiris, the senior society; four are on the Institute Committee, the governing board of undergraduate activities. We have also the captain of the hockey team, the president and the treasure of the athletic association, the chairman and onember of the Point System committee, the general manager of the Tech Show, five members of the Senior Class Day committee, one member of the Junior Prom committee, and the athletic editor of Technique.

We are looking forward with great enthusiasm to the removal of the Institute to its new location in Cambridge on the Charles River. Already the new athletic field has been in use for several months, and is regarded as having the widest and fastest track in the country. It is expected that the Institute will be in its new quarters in the fall of 1916, and at that time Eta Chapter expects to have permanent quarters.

Eta Chapter extends its greetings to all the chapters and a cordial invitation to any of the brothers who come to Boston.

Eta Chapter looks forward to becoming more intimately acquainted with the other chapters at the convention this year in San Francisco.

THETA CHAPTER. Established May 7, 1914 Columbia University New York, N. V.

By R. H. ORMSBEE, '15, Associate Editor

INCE the initiation of our charter members in May, 1914, the chapter roll has doubled in numbers. Immediately after receiving their instructions in the mysteries of Theta Tau the 1914 members of Theta

Chapter initiated the following seven men from the Junior class:

J. W. Alden Met.	E. '15
R. Benson Met.	E. '15
G. F. Coope E. 1	M. '15
H. H. Howry Met.	E. '15
R. H. Ormsbee E.]	
J. A. Thomas, Jr E. 1	M. '15
F. S. Wright E. 1	

Then in December of 1914, two members of the senior class and seven of the juniors were initiated. The addition of the following men brought our roll up to sixteen.

G. B. Curwen Met. E.	'15
G. R. Page, B. S E. M.	'15
R. M. Banks Met. E.	'16
H. Birkett E. M.	'16
J. T. Kemp, B. S Met. E.	'16
T. B. Kenvin E. M.	'16
W. P. Klugescheid E. M.	'16
T. H. Webb E. M.	'16
F. E. Wormser E. M.	'16

At the first meeting of the college year 1914-15. brother Wright was elected Regent; brother Coope, Vice-Regent; brother Thomas, Treasurer; and brother Ormsbee, Scribe. The following meetings were chiefly devoted to the drafting of By-laws and the discussion of ways and means. When these matters had been thrashed out and settled there came up the question of new men and initiation. The former having been chosen the date for the eventful occasion was set. December 5th, being decided upon as the most convenient and earliest one possible. Bros. C. F. Mac-Carthy '14, and Roy Wood, '14, very kindly offered us the use of the Beta Theta Pi House, for the occasion and in addition assured us that as a committee of two they would look after the refreshment end of the evening. There has been nothing but praise for the way in which they carried out their part of the agreement. The initiation ceremonies were impressively conducted by our Regent Brother Wright, attended by the whole chapter.

The last meeting before the Christmas Holidays was given over to the reading of a paper on the metallurgy of tin by brother Ernest Kleptko. This paper was very good and was followed by a general discussion of the subject by the chapter.

On their return from the holidays the men were all busy preparing to uphold their high average of scholarship, in the approaching mid-years. We are proud to say this was successfully accomplished.

At our next meeting after the mid-years, we had election of officers, choosing these men; Regent, J. T. Kemp; Vice-regent, R. Benson; Scribe, F. E. Wormser; Treasurer, H. Birkett and Corresponding Secy., T. B. Kenvin. These men hold office for the period of one year.

Wormser Banks Webb Ormsbee Howry THETA CHAPTER Kemp Kenvin Ke Klugescheid Benson

Just at present the committee in charge of such matters, is busily engaged in arranging to have men prominent in mining and metallurgy, deliver informal talks to the chapter. Undoubtedly some of these meetings will be open to the faculty and students of the mining department. In this way we hope to be brought into closer touch with the present day advance in these sciences.

That the men in the chapter are active on the campus is shown by their records. In athletics we have brother Benson, captain of the basketball team, brother Page, on the baseball team, brother Coope, captain of swimming, brother Webb, captain of swimming, brother Webb, captain of hockey, brother Wormer, pulling an oar and brother Howry, struggling around on the mats. Athletics however, is not our only line of activity and we are well representation of the structure of the struc

Yours in Theta Tau, R. H. ORMSBEE

THETA CHAPTER ALUMNI NEWS.

Brothers T. H. Barrett, J. S. Miller, L. V. Lee and C. M. Brister, Jt., have been in the employ of Mr. R. V. Norris, consulting engineer, of Wilkes-Barre, Pa, working on an extensive examination of the Susquehanna Coal Company's anthractic properties. Brother Lee left in November for his home in Mexico. Brother Barrett, has just accepted a position with the Wanakah Mining Company, at Ouray, Colorado. Brothers Miller and Brister are still on the job.

Brother H. E. Bird, Jr., is doing some exploratory

work near Morenci, Arizona.

Brother D. G. Campbell, recently married Miss Grace Durant, of Massachusetts. He is professor of metallurgy at University of Washington, Seattle, Wash. Brother E. I. Williams, is working in a pyrite mine

in Canada.

Brother W. W. Colquhoun, is a 2nd. Lieutenant in the Scottish Guards, Great Britain. He is impatient for service at the front.

Brother C. B. Sadtler, is employed as expert metallographer, in Providence, R. I.

Brother G. S. Patterson, is working for the New Jersey Zinc Company.

Brother R. U. Wood, has accepted a position as instructor of metallurgy in Columbia University.

Brother C. F. MacCarthy, returned to the university this year where he has taken up some special extension and research work.

Brother I. W. Hadsell, is now engaged on some temporary work at Garrison, N. Y., while awaiting a mine in Mexico to resume operations where he expects to go as soon as conditions become more settled in that region.

TWIN CITY ALUMNI ASSOCIATION Established Feb. 3, 1912

Minneapolis, Minnesota

REETINGS and best wishes to all the brothers in Theta Tau, from the Twin City Alumni Association. For the season just closed, we held

our first meeting at the University Club and our second meeting at the Athletic Club. Both of these meetings were informal. Our first regular meeting was held the first Wednesday in November. At this meeting, brother Otto F. Zelner, of the College of Engineering at the State University, gave a paper on "The Engineers Summer Camp at Minnesota" and described in detail the summer field work. Election of officers was held with the result that there was no change from last year.

For the rest of the year, through the courtesy of brother Arthur Larkin, we held our meetings at the Minneapolis Athletic Club.

At the December meeting, brother George Shepard gave an interesting paper on irrigation in Colorado, illustrated by lantern slides.

At the January meeting, brother Paul Johnson described the new power plant and dam at Coon Rapids on the Mississippi, illustrated by photographs of the work under construction.

Our February meeting, was omitted.

At the March meeting, brother Ike Hanks, who has been doing some special research and association work for the Northwestern Lumbermen, gave us a straight talk on "Efficiency Methods in Modern Business."

At our April meeting, brother Dr. Holman, of the College of Engineering at the State University, told us about the work that is being done to revise the engineering curriculum and bring it down to date. Dr. Holman, tells us that the Professors job is not an easy one, and the educators' job is still harder.

Brother Al Warren closed the season in a fitting manner by showing us the Illinois Steel Company's moving picture films of the manufacture of steel and incidentally gave us a lot of good information about the iron and steel business, past, present and future.

We feel that the season for our association has been fairly successful. We should be glad to exchange ideas with the other Theta Tau Alumni Associations.

With best wishes, we are

TWIN CITY ALUMNI ASSOCIATION,
WALTER H. WHEELER.

President.

CLEVELAND ALUMNI ASSOCIATION. Established Oct. 15, 1913

Cleveland, Ohio

T the close of last year the following officers were elected to serve for the year 1915: President, bro. E. A. Taylor, '11; Vice-President, bro. A. R. McLaughlin, '11; Secretary, bro. A. C. Budde, '12; Treas-

urer, bro. C. A. Bever, '13.

In looking back over the record of the Cleveland Association, the things that have been accomplished are due in a great measure to the efforts of the retiring President, bro. M. W. Vickery. For the past two years his insistent as well as consistent work, has in a quiet way, put the stamp of approval on all the Association's work, so that it needs no further comment at this time. We are fortunate in having bro. Vickery with us in the capacity of Counsellor at Law.

Through a little effort and some sacrifices we have held meetings every month this past year, with but three exceptions. All of these have been held at the Chapter House. On every alternate month, alumni have met with the active chapter at dinner. After a short business meeting, we have adjourned to enjoy a sociable hour with the members both old and new. Beginning with April 3rd, we are to have a series of papers or talks by the alumni, these will souch on many branches of work. They should be of interest to all.

We have a building fund. What have you Delta Alumni done toward it this past year? Enough said.

The Secretary of the Cleveland Alumni Association, is very anxious to hear from all of the alumni. Please communicate with him as soon as possible.

O. C. BUDDE

1579 Campton Road, Cleveland Heights, Cleveland, Ohio., Secretary of the Cleveland Alumni Association.
